Continuous Provision Area Labels

Printable signage for EYFS classrooms

About these labels

These labels turn an EYFS classroom into a navigable environment children can use independently. Each label has the area name in clear bold text, a simple icon-style image cue, and (importantly) a one-line 'invitation' — what the child can do here. PRINT on A4. Laminate if you can. Mount at child eye level — usually 90-110cm from the floor, not adult eye level. WHY THIS MATTERS: A child who can find what they need without asking an adult is a child building independence. Labelling is one of the cheapest, highest-leverage moves in EYFS classroom organisation. Children also start recognising the words on the labels — incidental literacy.
