

TEACHER RESOURCES · ALL GRADES

Class Data Collection

One sheet, any data point

How to use

Write the data point you're tracking at the top — e.g. 'Multiplication facts test score', 'Read aloud — fluency 1-4', 'Returned permission slip Y/N'. Add student names down the left. Tick / score / note as you go. Designed to be quick — most teachers use one of these in the back of their planner per topic.

What I'm tracking

Data point _____

Date / Period _____

Scoring scale _____
