

GEOGRAPHY · GRADES 3–4

Human vs Physical Geography

Two kinds of geographical features

Two types of feature

1

Physical geography

Things in the natural world — not built by people.

Example: Mountains, rivers, deserts, climate.

2

Human geography

Things people have made, built or organized.

Example: Cities, roads, languages, borders.

Sort each feature

Physical	Human	

Cut out and sort: river, highway, village, mountain, language, ocean, skyscraper, desert, border, lake, factory, valley, school, rainforest, park, volcano, harbor, forest, farm, cliff
