

MATH · GRADE 2

Counting Money

Add up the coins

Coin values

1¢ = penny · 5¢ = nickel · 10¢ = dime · 25¢ = quarter · 100¢ = \$1.00. (UK / international: 1p, 5p, 10p, 20p, 50p, £1; AUD: 5¢, 10¢, 20¢, 50¢, \$1, \$2.) Add the coin values to find the total.

Find the total

1. 3 dimes + 2 nickels = ____¢
2. 1 quarter + 4 pennies = ____¢
3. 2 quarters + 1 dime + 3 pennies = ____¢
4. 5 nickels + 1 dime = ____¢
5. 4 dimes + 3 nickels + 5 pennies = ____¢

Word problems

1. Sam has 2 quarters and 3 dimes. He buys candy for 65¢. How much does he have left?
2. Mia has 90¢. Can she buy a book that costs \$1.20? How much short is she?
3. A pencil costs 35¢. Toby pays with two quarters. How much change?
