# Nature Walk Observation Cards

32 prompt cards for outdoor learning

## Observation prompts — choose 5 for your walk

- Find something that has changed colour
- Find evidence an animal has been here
- Find 3 different textures and sketch them
- Find where water has collected or flowed
- Find a plant that uses seeds to reproduce
- Count how many different plants you can see in 1 minute
- Pick up (carefully) and observe something with your magnifying glass
- Look up — what can you see that you can't see from indoors?
- Find something smaller than your thumbnail
- Listen for 5 seconds — list every sound you hear
- Find something that wasn't here last season
- Find something that smells interesting
- Find an animal's home or shelter
- Find something that casts an interesting shadow
- Find something that shows the wind direction
