Mock Paper Analysis

Identify your top revision priorities

How to use this template

Once you have your mock paper marked, work through it slowly. For each question you got wrong, mark the error type below. Group similar errors together to spot patterns. Pick your top 3 priorities for revision this week. Re-do this template after the next mock to track progress.

Error Types

1

Calculation error

Got the method right, made an arithmetic slip. Fix: more practice, slower work.

2

Wrong method

Used a method that doesn't work for this question type. Fix: re-learn the method.

3

Misread the question

Answered something different from what was asked. Fix: underline key words.

4

Didn't know how

Topic not yet learned or completely forgotten. Fix: full revision of topic.

5

Ran out of time

Knew it but didn't finish. Fix: practice timing on similar questions.

6

Careless

Knew it but rushed. Fix: check work at end of paper.

Top 3 Priorities for Revision
