Class Reward Chart

100 squares to our reward

How it works

Instructions for teacher and

1. Discuss with the class what they're working TOWARDS — the reward at 100 points.
2. Every time the class earns a point (good listening, great line, tidy classroom), colour in one square.
3. Points are earned TOGETHER — this is about the class, not individuals.
4. When all 100 squares are coloured, the class gets their reward.
5. IMPORTANT: never take points away once earned — this creates anxiety and resentment. Instead: pause adding new points if needed.
6. Reset the chart and pick a new reward at the start of each new challenge.
7. Praise the SPECIFIC behaviour: 'You all came in quietly and went straight to your task — that earns a class point.'
